

AI-Powered Venture Studio

Transforming Early-Stage Startups in MENA

MENA Startup Ecosystem Challenges

The Challenge

Declining Numbers of New Startups

MENA region is witnessing a decrease in the number of new startups

Low Risk Appetite

Almost nobody wants to work with startups at the early stage

Ineffective Support Systems

Traditional incubators and accelerators in MENA have minimal effect on early stage startups

Xanadu Ventures Solution

AI-Powered Framework

Using AI tools for rapid prototyping, MVP creation and market launch

Experienced Team

Credentialed professionals with proven track record of building, scaling and exiting startups

Record-Pace Launch

Helping push new ideas to market with unprecedented speed and efficiency

The AI Revolution Opportunity: With the global AI revolution, building startups should become easier than ever - the winning formula is rapid prototyping and proven startup scaling expertise combined

Introduction

Early-stage venture studio revolutionizing startup creation in MENA

Xanadu Ventures is an AI-powered early stage venture studio helping entrepreneurs transform innovative ideas into market-ready startups at record pace.

Our Mission

Create an efficient startup ecosystem in MENA by providing the tools, expertise, and resources needed to build successful ventures.

Our Approach

Combine AI-powered rapid prototyping, MVP creation, and market validation with proven scaling expertise to accelerate startup development.

Our Difference

Hands-on execution with a credentialed team that has proven track records in building, scaling, and exiting successful startups.

Our Secret Recipe

A 6-Week Venture Building Pipeline

“ Our secret formula combines human expertise + AI acceleration = 3x faster venture building ”

Our Portfolio

Xanadu Ventures' Startup Ecosystem

Xanadu Ventures has built a diverse portfolio of early-stage companies across multiple sectors in the MENA region, from sharing economy platforms to blockchain solutions. Each company represents our commitment to innovation and market disruption.

Sek

Sharing Economy / Marketplace

Community-based marketplaces for renting items

Heru

Esports / Gaming

The esports arena for gamers, organizers, and sponsors in MENA

BillBot

Stealth

Fintech / AI

AI-powered WhatsApp bot for bill tracking and payment

**Real Estate
Tokenization**

Stealth

PropTech / Blockchain

Fractional ownership of properties through blockchain

Crypto Exchange

Stealth

Crypto / Fintech

Egypt's first compliant cryptocurrency exchange platform

**Local Brands
Platform**

Stealth

E-Commerce

Unified marketplace for emerging local brands

Sek

Portfolio Company

Seed Stage

Sek is a platform enabling users to create and participate in self-governed, community-based marketplaces for renting items.

Industry

Sharing Economy / Marketplace

Opportunity

Creating a platform that enables communities to build their own rental marketplaces, solving the trust and accessibility challenges in the sharing economy.

Why Now?

Growing sharing economy trend globally

Increasing consumer acceptance of rental services over ownership

Need for localized trust systems in rental marketplaces

Rising costs of ownership making rental solutions more attractive

Technology maturity enabling secure peer-to-peer transactions

Team

Bassem Quolta
Co-Founder & CTO

[LinkedIn Profile](#)

Mustafa Gamal
Co-Founder

[LinkedIn Profile](#)

Vision

Democratizing access to goods through community-based sharing economy platforms.

Status:

Product Ready

Heru

Portfolio Company

Seed Stage

The esports arena for gamers, organizers, and sponsors in MENA.

Industry

Esports / Gaming

Opportunity

Unlocking the full potential of MENA's esports scene by providing a centralized platform that streamlines tournament organization, fosters player communities, and attracts sponsor engagement — all within a scalable, region-first digital arena.

Why Now?

MENA esports market is rapidly growing (\$200M+ size, 8.7% CAGR)

Over 60% of MENA gamers are under 30, with high engagement

Fragmented experience for gamers, organizers, and sponsors

Rising demand to organize tournaments—especially within corporations, universities, and local communities

Team

Omar Abdelgawad
Co-Founder

[LinkedIn Profile](#)

Abdelrahman Refaat
Co-Founder & Business Development

[LinkedIn Profile](#)

Vision

Building the premier esports arena that connects gamers, tournament organizers, and sponsors across the MENA region.

Status:

Product Ready

BillBot

Portfolio Company

Seed Stage

Stealth Mode

An AI-powered WhatsApp bot that helps users effortlessly track, pay, and manage all their bills in one place.

Industry

Fintech / AI

Opportunity

Simplifying bill management through AI-powered WhatsApp integration, enabling users to track, manage, and pay all bills through a familiar messaging interface.

Why Now?

Bill payment fragmentation across different platforms creates friction

Increasing complexity of bill management with multiple service providers.

Large Language Models enabling more natural, context-aware interactions for complex financial tasks

High WhatsApp penetration in Egypt (over 90% smartphone users)

Team

Seif Ahmed
Co-Founder

[LinkedIn Profile](#)

Abdelrahman Moez
Co-Founder

[LinkedIn Profile](#)

Vision

Simplifying financial management through AI-powered messaging that makes bill payments as easy as chatting with a friend.

Status:

Active Development

Truss

Portfolio Company

Seed Stage

Stealth Mode

Real estate investment through blockchain tokenization, enabling fractional ownership of properties.

Industry

PropTech / Blockchain / Fintech

Opportunity

Democratizing real estate investment by allowing fractional ownership of premium properties through blockchain tokenization, making high-value assets accessible to more investors.

Why Now?

Growing regulatory frameworks for digital securities and tokenized assets (especially in Dubai)

Tokenization reduces minimum investment thresholds, opening access to premium real estate

Blockchain technology now offers stable, scalable infrastructure for tokenization

Team

Nour Haridy
Co-Founder

[LinkedIn](#)

Mo'az Mohsen
Co-Founder

[LinkedIn](#)

Samuel Abdelmalak
Co-Founder

[LinkedIn Profile](#)

Vision

Transforming real estate investment by making premium properties accessible to everyone through blockchain-enabled fractional ownership.

Status:

Active Development

Crypto Exchange

Portfolio Company

Seed Stage

Stealth Mode

Egypt's first cryptocurrency exchange platform providing secure, compliant trading for digital assets.

Industry

Crypto / Blockchain / Fintech

Opportunity

Creating the first regulated cryptocurrency trading platform in Egypt, providing a secure and compliant gateway for the growing digital asset market in the MENA region.

Why Now?

Opportunity to become the leading crypto exchange in North Africa/MENA region

CBE's licensing framework for cryptocurrency exchanges creating legitimate, compliant market entry (+sandbox opportunity)

Egypt has one of the highest cryptocurrency trading growth rates globally despite current legal restrictions & trading through unregulated channels.

Local Brands Platform

Portfolio Company

Seed Stage

Stealth Mode

A unified online marketplace connecting emerging local brands with customers.

Industry

E-Commerce

Opportunity

Creating a centralized discovery platform for Egypt's diverse local brand ecosystem, simplifying customer access to emerging brands currently scattered across social media.

Why Now?

Explosion of new local brands operating primarily through Instagram, Facebook, and TikTok

Users struggle to discover and keep track of hundreds of local brands scattered across different social media platforms

No centralized platform showcasing Egypt's diverse local brand ecosystem
